

Solace Reef

Pre-Order Checklist

Ashes Release confirmation

Solace Reef Ltd needs to see proof that you are the legal guardian of the Ashes before the day of placement.

Hopefully the next of kin, a member of the family or an authorised family representative will be placing your loved ones ashes into their Solace Stone. Alternatively, a representative from Weymouth and Portland Solace Reef Ltd will place the ashes into the Solace Stone on your behalf. Either way, you must supply a copy of the Certificate of Cremation as part of your order for a Solace Stone.

Memorial Flowers

Have you thought about Memorial Flowers? You will have the opportunity to drop flowers or wreaths on the water above the location of your loved one's memorial stone

Photography / Videography

Have you considered a record of the Memorial Stone sinking? You might like to make sure a member of your party has a Camera or Video Camera with them in order to record the event.

There is an example of a Memorial Video on our website:
<http://www.solacereef.co.uk/memorial-video/>

Transport

We suggest that you pre-arrange transport to the boat departure location if you are travelling by train.

We are happy to help you arrange any part of your Memorial Stone Sinking experience, or advise you about any element.

We work closely with professional suppliers that will help with provision of any service that you may feel you do not want to handle yourself.

Your loved ones Solace Stone placement should be a time where you can reflect and come away with exactly what you want from the whole experience. We just want to make your day run as smoothly as possible.
